OPEN SOURCE FOUNDERS SUMMIT

2025 sponsorship opportunities

— **About Open Source Founders Summit**

Two days of talks and workshops packed with concrete, actionable strategies and tactics for building financially successful open source businesses.

The only conference that explicitly brings together all kinds of open source businesses (VC-backed, bootstrapped, DevTool and non-DevTool) to focus on the challenges and opportunities unique to open source companies.

Co-created with attendees' input so that content directly addresses their current priorities.
